

uPASS Go Accessories

Installation accessories for the uPASS Go long range reader

Products:

- ▶ Mount Set Pole
- ▶ Mount Set Extension
- ▶ Weather Protection Hood

Mount Set Pole

With the Mount Set Pole, the uPASS Go reader can be mounted easily on a pole or flat surface. The front part of the set is screwed to the back of the reader. The Reader can be positioned at an angle using the two side screws. The Mount Set Pole is included with the uPASS Go reader as standard.

Mount Set Extension

The Mount Set Extension is an optional accessory to enable the mounting of the uPASS Go reader to a wall or ceiling. The Mount Set Extension offers the possibility to position the reader at the desired angle both horizontally as vertically to achieve an optimal line of sight. The front part of the standard Mount Set Pole needs to be installed in the extension set using the two screws.

Weather Protection Hood

If the uPASS Go reader is used in (extreme) sunny weather conditions, it is recommended to fit a Weather Protection Hood. This hood protects the reader from temperature rise due to long-term exposure to the sun. The Weather Protection Hood is an optional accessory and needs to be mounted on top of the front part of the standard Mount Set Pole using two screws.

uPASS Go Accessories

Technical information
